

## Erosion and Sediment-Control

What you do not see is as important as what you do see.

Covering soil with mulch or grass prevents erosion and reduces sediment loads to streams.

## Erosion and Sediment-Control

What you do not see is as important as what you do see.

**Local storm=Muddy creek**

**Storm up-river=Muddy River**

# Erosion and Sediment-Control

What you do not see is as important as what you do see.

Clean drains yield clean streams, muddy drains yield muddy creeks.
